

Specialty Polymer Coatings, Inc.

Specialty Polymer Coatings, Inc. ("SPC") is a leading North American formulator, manufacturer and distributor of "state of the art" 100% solids (no VOCs) liquid epoxy and polyurethane coatings.

SPC coatings have been utilized on **Marine Vessels, Structures and Pipelines** and have **Lloyd's Register of Shipping** approval. Successful coating applications include:

- U.S. Coast Guard Icebreakers "Glacier", "Mackinaw" and "Raritan" and Cutters "Dallas" and "Munro".
Canadian Coast Guard Icebreakers "Wolf", "Sir Humphrey Gilbert" and "Des Groseilliers".
- Gulf Canada Resources Conical Drilling Rig "Kulluk" and Mobile Arctic Caisson "MOLIKPAQ" (MAC) in the Beaufort Sea
- Offshore Platforms for Shell Oil and Chevron Petroleum in the North Sea
- Marine vessels "Canadian Pioneer", "MV Greatland" and "Westward Venture"
- B.C. Ferries and Vancouver Harbour vessels
- Marine Docks for State of Alaska, Port of Anchorage, U.S. Coast Guard, Canadian National Harbours Board, Port Authority of Vancouver, B.C. Ferry Corporation, and Burrard Dry Dock.

In the **Pipeline Industry**, SPC epoxies have become the "standard" liquid corrosion protection coatings and SP-2888® R.G. was the coating of choice used on the **Maritimes and Northeast Pipeline natural gas mainline and the Saint John and Halifax Laterals**. In addition, this coating system was utilized as the major repair coating on the onshore portion of the **Sable Island Gas Project**.
